[Minimum 50 words]
Outlines- Congratulations-happy-With hard work- Top priority-accept-performance-.....[15 phrases]

2nd Round : Technical Interview (30 minute)

As I was feeling nervous at that time so the interviewer ask me to have biscuits , So I accept it and without waiting for me he started to ask me the questions within a second to cheque that how I will answer . The questions were as stated below.

1. Tell me about yourself?
2. Hobbies and Interests.
3. About my home town and grand parents.
4. Explain your major project of Polytechnic? (Use block diagram and prepare well about project most question ask on that. mine more than 50% interview on that after project he start asking questions related to electronics)
5. Thevenin's theorem, Norton's theorem, Superposition theorem with circuit diagram and formulae?
6. Star to Delta conversion and vice versa.
7. Your favourite subject? Why?
8. What you read or learn about this subject lastly? Latest news about it?
9. Seminar delivered in polytechnic.
10. Any questions for me? (ask him at least single questions)
Note – Please do not ask them about the latest project. You can ask about your performance in the respective interview or any improvement in yourself.

3rd Round : HR round (15 minute)

1. Tell me about yourself?
2. Why TCS?
3. Are you ready to relocate yourself?
4. Your hobby? –Try to give any hobby which you can easily justify.
5. Your strength?
6. Your weakness? (She started to trap me)
7. Will you lie for the company? [don't say yes or no directly]
8. Any question for me?

Try to give answer of every question because they just check your confidence level does matter what you speak.

After long time waiting finally I got offer latter. Friends prepare well for campus you need just confidence and positive attitude.

If you don't know the answer of any question then be polite and say like "Sorry Sir/ madam, I don't know the answer but I will find it and then I will come back to you".

BEST OF LUCK
